

ADiNO® CL 4910.0

Releasing Fluid

Application

- Versatile releasing agent – highly effective anti-adhesive agent
- Suitable for all common edge banding machines in furniture industry

Characteristics

- Fast acting
- Environmental friendly
- Highly volatile
- Mild odour

Technical Data

Basis	: Alcohol
Appearance	: Liquid
Colour	: yellow
Density	: approx. 0.775 g/cm ³

Instruction for Use

The release fluid sprayed on the top and bottom of the edge area of the workpiece in front of the pre-milling unit.

The release fluid leaves a quickly evaporating protective film on the workpiece.

The visible advantage: No hotmelt residues are able to adhere onto the workpiece and will be removed at the buffing station.

Packaging / Storage

30 L canister / shelf-life 24 months after production date.

Keep in a cool and dry place

All information based on internal tests and many years of practical experience.

The variety of materials used and different work conditions, which lie beyond our control, preclude any claims based on this data. We recommend performing sufficient test and pilot run that our technical service team gladly support.
