

ADiNO® CL 4955.0

Liquid Cleaner

Application

- Cleaning of non-cured 1-C and 2-C PUR adhesives, PUR foam, sealing compounds
- Preparation of surfaces to be bonded
- Dilution of different adhesive systems

Characteristics

- Mild odour
- Good compatibility with a lot of different coated surfaces
- Suitable for manual use and automatic application systems
- Quickly drying

Technical Data

Basis	: Organic Solvent
Appearance	: Liquid
Colour	: Clear
Density	: approx. 0.79 g/cm ³

Instruction for Use

Remove the 1-C or 2-C non cured PUR adhesive that remain on the surface using a soaked cloth by wiping the of the adhesive residues and dry it with a dry cloth.

Cleaning of surfaces prior bonding to increase adhesion. Always check the surfaces to be cleaned for compatibility.

Using ADiNO® CL 4955.0 for dilution of different solventbased adhesives by adding the necessary amount for the required viscosity and stir until the solvent is even diluted.

Packaging / Storage

30 L canister / shelf-life 24 months after production date.

Keep in a cool and dry place

All information based on internal tests and many years of practical experience.

The variety of materials used and different work conditions, which lie beyond our control, preclude any claims based on this data. We recommend performing sufficient test and pilot run that our technical service team gladly support.
